Informed Consent for Treatment

I hereby request and consent to the performance of chiropractic adjustments and other chiropractic procedures, to include, but not limited to, various modes of physical therapy, diagnostic x-rays and spinal decompression, physical examination, or any other medical procedures on me (or on the patient named below, for whom I am legally responsible) by the doctor of chiropractic named below and/or other licensed doctors of chiropractic who now or in the future treat me while employed by, working, or associated with, or serving as back-up for the chiropractor named below, including those working at the clinic or office listed below or any other office or clinic associated with the following clinic: New Spring Chiropractic

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

I have had an opportunity to discuss with the doctor of chiropractic named below the nature and purpose of chiropractic adjustments and other procedures. I understand that results are not guaranteed.

I understand and am informed that, as in the practice of medicine, in the practice of chiropractic there are some risks to treatment including, but not limited to, fractures, disc injuries, strokes, dislocations and sprains. I do not expect the doctor to be able to anticipate and explain all risks and complications, and I wish to rely on the doctor to exercise judgement during the course of the procedure which the doctor feels at the time, based upon the facts then known, and is in my best interest. Alternative treatments may include: medication, surgery, or physical therapy procedures. As with any of these alternative procedures there are risks. If no treatment is sought, your condition could get worse, remain the same, or improve.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.
